

Something to think about : Do unto others as you want others to do unto you. Do you know the base word "Friend" appears in the KJV bible 99 times and yet here on the sermons there is a chatroom that people are afraid to use. Whether it be before, during or after any sermons.

Society has completely and totally forgotten that God put everyone here for a reason. That reason was NOT to be ignored by others. I've seen first hand how society treats one another on a daily basis. That is, until a natural disaster hits, then everyone is buddy/buddy. Once the disaster is over and the ALL CLEAR notice goes out, everyone resorts back to their old ways. People treat me like I have been plagued with every known disease to man. That is until the need something I have. I wonder why people are so jealous that God gave me the gift of severe epilepsy.

Now as locals see their lives going into complete turmoil, job loss, losing homes, families falling apart due to the lack of money. WAIT! MONEY! That is the key ingredients to all evil. As the money dwindles away, so does the family threshold. People make fun of those of us on SSI, SSDI, welfare etc. But boy do their attitudes change when they realize they are in the same boat. People have totally lost the concept in what the barter system was all about. Just because 1, 2 or even 50 people take ADVANTAGE OF IT AND NEVER REPAY, Those are the ones who lose out. God keeps track. Back in the day when I was able to obtain work, I had 30 % of the customers who were below poverty. Like I was (and still am).

I did their yardwork in exchange for rides to the store instead of the bus. As soon as they witnessed a seizure, it ended everything. The next winter when we had over 6' of snow in a single storm, those calls came back to needing my services. Ironic.

Those buildings where people go to worship need a reality check. They have no clue what the bible is even about. Those buildings are more like going to a fashion show. If you are not dressed to their standards you are asked to leave. Do they ask Jesus Christ to stay out of their lives because he never had that \$3,000 Dress suit? Never.

When you turn someone away, think about the consequences you may suffer later. It may not be from that person you turned away. God has His ways of waking you up to the fact that you are being selfish when others ask for your friendships, support etc. Case in point? I know 4 families who avoided me in every way because I'm epileptic. All 4 are suffering severe financial trauma and "NOW" they want to buddy up. Never going to happen.
